BUILDING THE DIGITAL GENERATION

VFUNDA

Digital Scheme

Brochure

DIGITITAN(PTY)LTD

Digititan (PTY) LTD is a proudly African company founded on a vision of working tirelessly towards making Africa a First World continent that is grounded on harnessing technology and innovation to attain economic independence that serves all its people.

OUR MISSION

Building an empowered and digital generation to eradicate inequality in the world.

OUR VALUES

Dignity

Respect

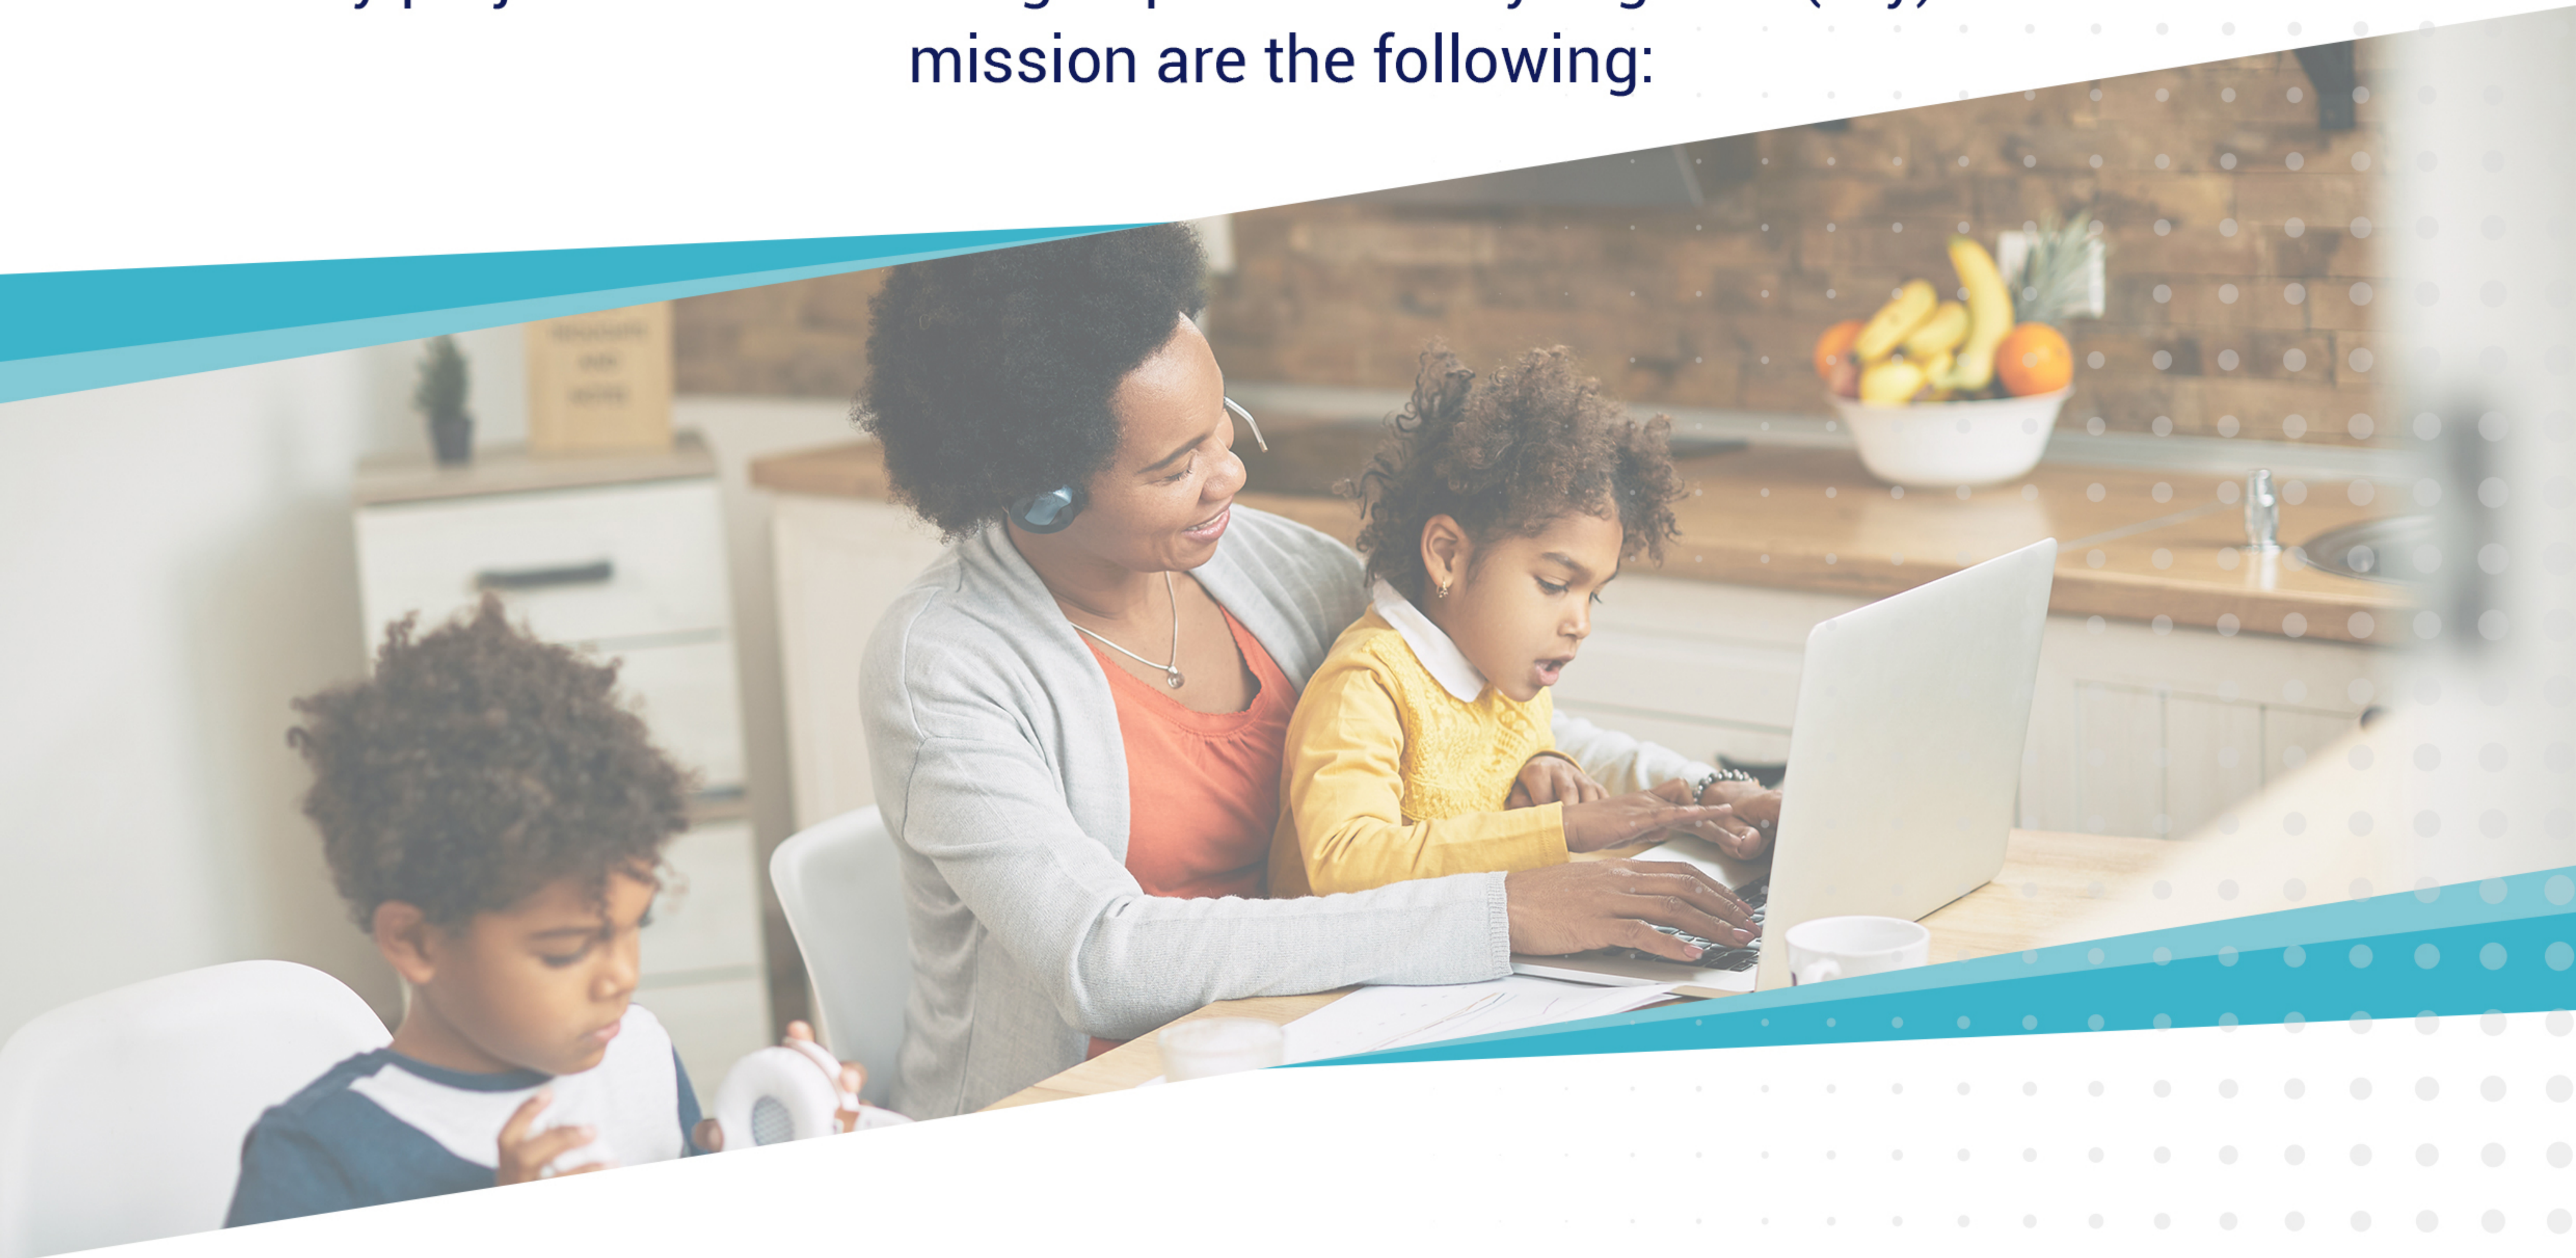

Integrity

Unity

PORTFOLIO

The key projects that are being implemented by Digititan(Pty)Ltd to realise its mission are the following:

VFUNDA DIGITAL SCHEME

Which is a scheme aimed at helping parents to procure digital learning materials and devices for their kids at a young age.

DIGITAL SKILLS FOR ALL

Aimed to promote and encourage the acquisition of digital skills among people from all walks of life. This campaign aims to empower individuals and communities with the tools they need to thrive in the digital economy and to ensure that no one is left behind in the digital age.

SMME DEVELOPMENT

This project is aimed at assisting businesses to focus more on using the 4th Industrial Revolution skills to advance their businesses operation. Entrepreneurs are assisted with training, networking, and business linkages.

VFUNDA DIGITAL SCHEME

The Vfundu Digital Scheme is a Digital Skills learning programme created to assist children to gain computer skills at an early age. In South Africa most learners acquire these computer skills late in life and therefore miss the opportunities that are afforded by the digital world. Learners must get these skills early in life. Digititan is therefore on a mission to make sure that young people from disadvantaged communities are not left behind in this digital society that we live in.

The **VFUNDA DIGITAL SCHEME** has different price plans which are aligned to different affordability levels.
